THOMAS J WICKER
UI/UX & Front End Developer

+ ## OBJECTIVE:

Whether it be a small start-up business or a large enterprise company, contract or full-time... I am always seeking new and exciting opportunities and projects to collaborate on. I appreciate your consideration of me as an addition to your team, and I look forward to hearing from you!

+ ## PROFESSIONAL EXPERIENCE:

Senior Front End Developer
DaVita in Denver, CO   March 2014- Current

- Working closely with the BAs, Analysts and the core Davita business team to develop a custom application for use by DaVita clinics world wide.
- Responsible for leading UI/UX focus groups to gather data and analytics to be used in the design/development process.
- Creating concepts, low fidelity mock-ups, high fidelity wireframes, and UI/UX specifications for the application and development team.
- Leveraging HTML5, CSS, SASS, jQuery, Javascript, AngularJS and Sharepoint 2013.
- Utilizing AGILE methodology daily to ensure proper project workflow throughout the SDLC Process.

Lead UI/UX Developer *(Project Lead/Mgr)*
AT&T Mobility in Greenwood Village, CO   Nov 2013 - March 2014

- Collaborating with a variety of teams including developers, BAs, SAs and operations to develop strategies for rich intuitive interfaces that always keep scalability and usability in mind throughout the project lifecycle.
- Leveraging HTML, CSS, jQuery/Javascript and MVC frameworks to design/develop and maintain complex user interfaces and responsive solutions for a variety of internal and external applications at AT&T.
- Utilizing methodologies such as Agile and SCRUM and making sure UI/UX is accounted for within those processes.
- Project lead on design and development of a new tablet design for AT&T's POS and account management systems in stores nationwide.
- Producing low/high fidelity mock-ups, wireframes, and UI specifications as needed to assist the business team with developing new application enhancements.

SOFTWARE ENGINEER III *(Project Lead/Mgr)*
Cricket Communications in Greenwood Village, CO   Jul 2013 - Nov 2013

- Producing low/high fidelity mock-ups, wireframes, and UI specifications as needed to assist the business team with developing new application enhancements.
- Collaborating with a variety of teams including developers, BAs, SAs and operations to develop strategies for rich intuitive interfaces that always keep scalability and usability in mind throughout the project lifecycle.
- Leveraging HTML, CSS, jQuery/Javascript, Adobe Creative Suite and other related technologies to design/develop and maintain complex user interfaces and responsive solutions for a variety of internal and external applications at Cricket.
- Utilizing methodologies such as Agile and SCRUM and making sure UI/UX is accounted for within those processes.
- Acted as project lead on design and development of a new interface for Cricket's POS and account management systems in stores nationwide.

+ PROFESSIONAL EXPERIENCE: *(continued)*

UI/UX DESIGNER & CONSULTANT
Regis Learning, Inc. in Golden, CO

May 2013 - Oct 2013

- Captured details of business requirements via storyboards and prototypes and produced graphics and visuals for hand off to the development team.
- Provided guidance on usability enhancements and made improvements to functionality of multiple eLearning applications.
- Mentored and provided guidance to Instructional Designers as needed.
- Collaborated with teams of other designers, developers, and management to deliver visual assets for use in a variety of eLearning projects for Regis's clients throughout the world and in a variety of environments and systems.

UI/UX DEVELOPER & CONSULTANT
RBSI Consulting, Inc. in Bartonville, TX

Oct 2012 - Feb 2013

- Contracted for RBSI Consulting on multiple nationwide contracts delivering UI/UX solutions and front end development.
- Developed storyboards, wireframes, low/high fidelity prototypes, and detailed design specifications for the team.
- Responsible for designing/developing mobile app UI in both native and web based formats to mirror and support concurrent desktop application functionality.
- Translated business requirements into designs working with Product Management, Systems Analysts, Subject Matter Experts, and developers to deliver a final product.

UI/UX DESIGNER/DEVELOPER *(Project Lead)*
APEX Systems, Inc. in Denver, CO

Jul 2011 - Jul 2013

- Designed/developed complex user interfaces and responsive web solutions for a variety of internal and external web applications, mobile applications and general web sites.
- Collaborated with a variety of teams including developers, business analysts and operations to develop strategies and design schemes for rich interactive interfaces that always kept scalability and usability in mind.
- Created and managed designs through all phases including initial concept, wireframes, low/high fidelity prototypes and final delivery and implementation.
- Integrated usability enhancements discovered through research, heuristic evaluations, user acceptance testing and focus groups.

+ REFERENCES:

" Thomas is an extremely gifted and creative individual. If you are looking for a quality designer or general marketing professional you cannot go wrong by adding him to your team. Thomas is a highly productive, intelligent, and flexible person who will help raise the quality of any team he is a part of. "

~ Christopher Aron
AT&T Mobility - Denver, CO

" Thomas is a detail oriented designer with great imagination. He is responsible for the majority of our custom CRM system look and feel redo and manages the UI/UX for just about every front end project here at Cricket. His designs are clean, mirrors what the customer wants and delivered on time. Thomas is such a valuable member of our contracting team that we are bringing him on full time here at Cricket. I would highly recommend Thomas for any UI/UX work. "

~ Richard Cook
Cricket Communications- Greenwood Village, CO

" RBSI initially hired Thomas for a 2 month project for some web related development we needed for one of our customers. Thomas did such an outstanding job for us that the assignment stretched to 7 months. We plan on using Thomas again on upcoming projects we have slated. Not only did Thomas do exceptionally good work for us - but he has a great attitude and interfaces extremely well with the end customer. "

~ Damon Veazey
